DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Specification

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)
- (e) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) BRIEF SUMMARY OF THE INVENTION.
- (g) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (h) DETAILED DESCRIPTION OF THE INVENTION.
- (i) CLAIM OR CLAIMS (commencing on a separate sheet).
- (j) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (k) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Art Unit: 1744

2. The disclosure is objected to because of the following informalities: On page 1, line 33, "appear" should be --appears--. On page 7, line 26, "solutiobn" should be --solution--. On page 8, line 36, "know" should be --known--. On page 9, line 4 "I this" should be --In these--.

Appropriate correction is required to these as well as any other spelling/grammar mistakes.

Allowable Subject Matter

3. Claims 1-38 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor render obvious the claimed combination of subject matter, particularly the filter unit comprising at least one cross-flow filter, said cross-flow filter preferably being a membrane filter. The prior art show "dead end" filters, i.e., filters that only have 1 inlet before the filter and 1 or more outlets after the filter. A cross-flow filter, as is known to those skilled in the art, has an inlet and an outlet on one side of the filter and an outlet on the other side of the filter; the inlet flow being parallel or roughly parallel to the filter membrane. To modify the prior art would require structural modifications beyond what one skilled in the art would do.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Herpers et al., Tipton, Rohrbacher, Berglund et al., Tanaka et al.,

Art Unit: 1744

Berglund, Rohrbacher et al., PCT patent to Kresse et al. and Japanese patent to Fujitsu show the current state of the art in floor cleaning devices with recirculation of dirty liquid.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
